RBSE Board

2022

Percentage: 91.20 %

SKILLS

Technical: HTML5, CSS3, Java Script, Responsive Web Design

Tools: GitHub, VS Code, Firebase, Supabase

EXPERIENCE

Udaan Club | Guru Ghasidas University

- Built and maintained web solutions for club activities.
- Collaborated with team members
- Designed responsive and user-friendly interfaces

PROJECTS

JEE College Predictor & AI Counseling Assistant

- Solved the problem of JEE aspirants identifying their best colleges based on rank, category, quota, and gender.
- Built the platform using HTML, CSS, JavaScript, Python, Flask, AI API KEY, historical JoSAA and CSAB cutoff data.
- Provided students with personalised college predictions and AI-aided counselling to better inform their decisions

CampusCircle

- Addressed the absence of a dedicated platform for students to network, collaborate and engage with campus communities.
- Developed the application using React, TypeScript, Supabase, PostgreSQL and Tailwind CSS.
- Built a centralised platform for students to interact, build community, and share information.

AttendNest

- Problem solved by tracking attendance of multiple subjects and tracking eligibility criteria for students.
- Built a Progressive Web App (PWA) with HTML, CSS, JavaScript, localStorage, and browser notification APIs.
- Enabled students to effectively manage attendance with subject wise tracking, percentage monitoring and automated reminders.

ACHIEVEMENTS

- Built multiple real world projects, including a JEE College Predictor, CampusCircle, PlateRelay, and SolarScope
- Grew and managed a YouTube channel with over 550,000 subscribers, creating educational and informative content for a large audience.
